SmartView™ Mounting Frame

2 Wide x 2 High Video Wall Display Frame

WMK-033

CD4636 shown in 2x2 config

This 2x2 SmartView™ kit mounts four ViewSonic® LCD displays to a structural wall in a 2 by 2 landscape configuration. It then receives LCD monitors by way of four machined fittings (per monitor) that thread into the monitor's own VESA holes and insert into the SmartView channel. Monitors are secured to the frame by way of locking arms, which provide an easy way to remove monitors for service. Removable panels located at the bottom corners of the frame conceal two compartments for installing and operating media players and other devices, which mount to the wall behind the monitors.

Special Features:

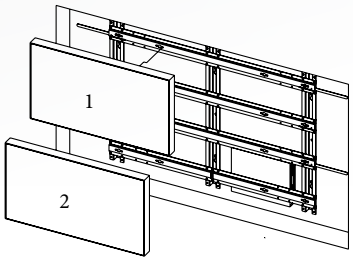
- Precise monitor alignment delivers huge time savings through single frame assembly
- Low Profile frame brings monitor surface to within 7.5" (19cm) of the wall
- Machined VESA fittings create a slide-in, slide-out feature for easy removal of monitors
- Locking arm handles are concealed for security and lock monitors into the frame
- Removable panels conceal media player area

SmartView™ Mounting Frame

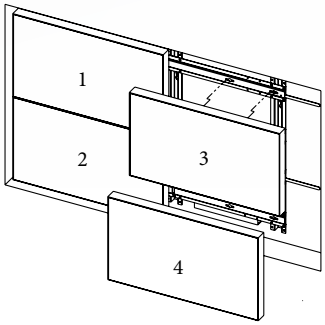
WMK-033

EASE OF INSTALLATION:

The 2x2 SmartView is packed in one section for easier handling and better protection during transit. The 2x2 requires simple hand tools for its assembly and installation. One section mounts to the wall to allow all monitors to be installed in a pre-aligned condition. The assembled frame weighs only 65 lb. / 29.5 kg so requires just one installer to complete the entire video wall installation.



First Column Locks Left to Right



Second Column Locks Right to Left

Monitor Mounting Holes

Monitor Locking Arms

SERVICEABILITY:

Servicing of monitors and media players is fast and easy due to SmartView's slide-in / slide-out feature. In a failed monitor situation, only one monitor must be moved and just one monitor is removed to service the media player.

Specifications

LCD Size	46"
Orientation	Landscape
Capacity	4 pcs 46" LCDs
Weight Load Limit	500 lb. / 227.3 kg
Factor	5:1
Material	Alloy steel
Weight	65 lb. / 29.5 kg
Dimensions (WxHxD)	78.5 x 42 x 2.4 in. / 1994 x 1067 x 61 mm
Finish	Powder coat
Color	Black

Important:

Installing video displays is a serious endeavor that requires experienced professionals. Improperly prepared walls and other structures, as well as the equipment being installed incorrectly can result in property damage, injury and/or liability to the installing contractor. Do not proceed if any part of the installation is in doubt. Consult a local specialist and adhere to local building codes.

ViewSonic Corporation's QMS & EMS have been registered to ISO 9001 & ISO 14001, respectively, by TUV NORD.
